## CAREER OBJECTIVE

**To apply my skills to develop innovative solutions that solve real-world problems and contribute to technological advancements in the industry**

## EDUCATION DETAILS

<b>Bachelor of Computer Science and Engineering,</b> <i>Dr Mahalingam college of Engineering and Technology</i> <i>CGPA : 7.6*up to Iv semester</i>	2022 – 2025 pollachi, India
<b>Diploma in Computer Technology,</b> <i>Nachimuthu Polytechnic College</i> <i>Percentage of : 89.2%</i>	2019 – 2022 Pollachi, India
<b>SSLC</b> <i>Arokiamatha Matriculation Higher Secondary School,</i> <i>Percentage of : 60%</i>	2018 – 2019 Pollachi, India

## TECHNICAL SKILLS

<b>C</b>	<b>MySQL</b>
<b>HTML</b>	<b>python</b>
<b>CSS</b>	

## PROJECTS

<b>IoT based Baby Hamper System</b> The project " Baby Hamper System" using IoT and Multiple Sensors proposes the development of a smart cradle that ensures the safety and comfort of infants by incorporating IoT technology and multiple sensors. The system includes wet, sound, PIR, and ultrasonic sensors that provide real-time data to monitor and maintain the baby's environment. The wet sensor detects if the baby's diaper needs changing, the sound sensor monitors the baby's cries.	01/2023 – 06/2023
<b>IoT based AUTOMATED THERMAL SCANNING SYSTEM</b> The "AUTOMATED THERMAL SCANNING SYSTEM" is developed for monitoring the temperature of human being when they entered through gate. If temperature of a person is more than 99 degree Fahrenheit, then the gate automatically rejects the entry. The buzzer also provides warning beeps if the temperature is high. Infrared thermal scanner is a contact-less technology able to monitor human temperature .	11/2021 – 05/2022

## EXTRA CURRICULAR AND CO-CURRICULAR ACTIVITIES

I completed a 3-month **Internship** program with  
**open weaver**  
july 2023

## AREA OF INTEREST

**Database Management System**

**Data Analyst**

I(**GOWTHAM KRISHNA V M**) hereby declare that all the above information is true to my
